FAQ

Why would you want to advertise with the lodge? *Targeted traffic* is the main reason. If your products or site deal with outdoors you will get the attention of our guests with your ad.

How much traffic to expect? That is completely out of our hands some ads are more appealing than others so we can't tell you that your ad will bring a ton of traffic from the lodge. We dont make anyone click on the ads and we do not use pop up ads cause most everyone now adays has a pop up blocker or some sort of program to block them ads from even appearing.

Do I get anything else with this ad plan? Absolutely! with this play you also get a permanent listing in our links directory if your site/business is outdoors oriented.

How many ads will run at one time? there will be a maximum of 15 ads running at one time.

Some Companies have found that donating gear, hunts or something of this nature to the monthly give-aways are the best advertising they can get. In doing so they get advertising space with the donation and links to their site for the month plus a review will be submitted on the product/hunt/trip and then in return will be seen by all and have a permanent link on the site in the reviews section and the links section.
